Majcherski.com KB

Hi, welcome to my knowledge base, I don't know what will be here.

Wiki currently not supported, it will be soon* migrated to something supported and working
if you need something contact at: jakub@majcherski.com
*where soon is probably late 2026, depends

I just needed a place where i could write things down and access them from any device.

If you want to contribute, get in touch. My email: jakub@majcherski.com

---

How to use (for contributors)

Log in, then you will be able to add/modify pages.
Put everything inside *content* namespace.
You can add pages on sidebar.
If you want to create a folder type text1:text2 where *text1* is folder name, and *text2* is page name (page will be created inside the folder).
To delete page simply remove its content.

Wiki syntax: https://www.dokuwiki.org/wiki:syntax
Markdown ~~is supported, refer to:~~ https://www.dokuwiki.org/plugin:markdownextra is not supported due to broken plugin.
Embedded HTML is supported.
